**Weather conditions 2020:** Had a very windy night of the 14th into early morning hours on 15th. Temps were around 45 degrees, strong winds that eventually calmed down. Very heavy downpours of rain; cloudy and overcast, rain did stop at times. Turned to snow flurries - nothing accumulated. Winds died down around 8 p.m. Quiet opening day overall at the buck pole. Several hunters have called in to say they got their deer and plan to register them on the 16th. November 16, 2020: Much more pleasant! We had some smaller racks, several 8 points, possibly attributed to the antler point restriction.
